SECTION I. HISTORY

Due to the extremely competitive nature of economic development at the national, state, and local levels, there is intense competition among states, counties, and municipalities to expand and/or locate business in their respective jurisdictions. This competition for job creation has forced states and municipalities to provide incentives to businesses in order to remain competitive. Crete has benefited from stable industries that have completed expansions and avoided a shortage of opportunities. In the past, the city had been unable to respond quickly to business recruitment opportunities by not controlling available property. Our ability to encourage business location and expansion has a direct impact not only upon the economic wellbeing of our community and its residents but on the state of Nebraska.

There is a need to empower Nebraska cities with the opportunity to provide assistance to business enterprises in their communities, whether for expansion of existing operations or the creation of new businesses, by use of the funds raised by local taxation when the voters in the municipality determine that it is in the best interest of the community to do so. The general strategy for this Economic Development Plan and the effort to be undertaken in accordance with the Local Option Municipal Economic Development Act (LB840, 1991-Section 18-2701, RRS1997, et. seq.) is to significantly enhance the city's involvement and leadership in future economic development efforts and to create new jobs in the area.

On June 3, 1991 Legislative Bill 840 was signed into law. This important piece of legislation authorizes incorporated cities and villages to appropriate and spend local sales and property tax revenues for approved economic development purposes. Consequently, this law allows Nebraska communities the opportunity to determine their own destiny by identifying shortcomings and providing, through self-determination those incentives necessary to businesses looking at their community. The economic development plan formulated by the city implementing this legislation and the mechanism for funding the plan is subject to a vote of the people of the city.

The core of the plan of the LB840 process involves the formulation of a proposed plan (the "Plan") for a local economic development program. The Plan forms the foundation for the collection and expenditure of local tax revenues for economic development and the provisions of the plan become the basis under which the municipality's program operates.

SECTION II. STATEMENT OF PURPOSE AND GENERAL INTENT

It is the intent of the City of Crete, Nebraska to implement an Economic Development Program, long range planning and funding for:

1. **Creating** high paying quality jobs by generating employment opportunities and expanding the available work force within the labor market of Crete and Saline County.
2. **Attracting** new capital investment to the community.
3. **Sustaining** existing job opportunities.
4. **Broadening** the tax base to provide economic diversification and ensure economic stability and vitality for the community of Crete and surrounding area.

SECTION III. COMMUNITY AND ECONOMIC DEVELOPMENT STRATEGY

An economic development program is a community tool that encourages and stimulates the growth of quality jobs, provides adequate infrastructure to keep the community competitive in the global marketplace, attracts permanent investment, broadens the tax base, and diversifies the area's economic base in order to find new opportunities and options for all citizens of the community.

The City intends to use this tool to spur economic development within the City. The City of Crete has adopted a Comprehensive Plan. This Comprehensive Plan is the culmination of a planning process that involved citizens of the City to define its future.

The City seeks, through this Economic Development Program, to be more competitive or at least as competitive in the economic development area as any other community in this or any other State of comparative size and to provide the residents of Crete with a better quality of life.

In order to have a successful economic development strategy and Crete to realize new growth and prosperity for existing and prospective residents, Crete must complete the following actions

1. The City can plan for the future by providing adequate community facilities.
2. The City must diversify its economy by recruitment of new industries from outside and developing new businesses from inside the City. Crete must have a program that is a nurturing environment for small businesses and is a center for economic opportunity. This atmosphere can encourage people (entrepreneurs) with the skills and ideas to come to Crete to conduct business.
3. The City can broaden the wealth producing economic base by bringing new employers and professionals to our community.

4. As Crete's economic climate expands globally, local businesses need to reinvent themselves to stay competitive. Necessary renovations in the areas of technology, shipping and receiving, employee recruitment and retention and physical plant may be too costly for small companies without the support of the community. Economic Development needs capital; therefore, the city must expand access to venture and risk capital both inside and outside the community.
